Please note that effective September 1, 2017, Early Retirees will have an irrevocable choice to not participate in the Dental Care Plan. This option is being made available to retirees as it is possible to obtain dental services at a lower cost depending on the province or country of residence. Please be aware that the decision to decline Dental Coverage is irrevocable. If Dental Coverage is declined there will not be an opportunity in the future to access this service.

Alternatively, you can also apply for Retiree Benefits through the ARTA. ARTA is available to teachers as well as support staff. Please click on the link to access this information [ARTA Benefits](#).
