EXEMPLARY PRACTICE: LITERACY INITIATIVE USING WORD WALLS, BOW VALLEY HIGH SCHOOL

Presenters: Shane Dempster, Sara Douglas, Jenisse Galloway

Teachers at Bow Valley High School (BVHS) in Cochrane have implemented a new approach to increase student literacy skills by providing a practical and consistent school-wide strategy for vocabulary instruction.

Project Description

Word Walls have been created throughout the school and provide staff across all disciplines with an accessible strategy to engage in literacy instruction that can easily be implemented in all learning spaces. The strategy models the importance of vocabulary acquisition, and the strategies used to decode and make meaning. A school-wide focus on common vocabulary increases students' abilities to comprehend what they are reading in all subject areas.

During this presentation, Principal Shane Dempster and English teachers Sara Douglas and Jenisse Galloway talked about how the program improved students' literacy skills and how they believe partnering with other high schools to create and compare shared vocabulary and best practices in

CHAIR REPORT/CORRESPONDENCE

The 2024/2025 school year has begun. The Board of Trustees welcomes all new and returning RVS students and staff. We are glad you are here and are grateful for all you will do throughout the 2024/2025 school year to make RVS a place where everyone learns, belongs, and succeeds. All the best for an amazing and successful school year.

Two RVS students have been selected as members of the Minister's Youth Council for the 2024/2025 school year. This 40-member provincial council provides the provincial government with various viewpoints and opinions about what is happening in the education system from a student perspective. It was a very competitive selection process and congratulations to Mattayeh S. (Cochrane High School) and Siifan A. (Chestermere High School).

As announced by the government in July, RVS expects to gain an additional \$4 million in operational funding along with 12 new modular classrooms and financial support for the movement of 12 of our existing modular classrooms. We are grateful the government is responding to our urgent request for

increased funding for growing school divisions and additional modular classrooms in communities where we continue to experience significant year over year enrolment growth. We will carefully and thoughtfully review the needs across the division to decide where the modulars will provide the greatest relief given our many full schools and how to best direct the \$4 million dollars into our classrooms.

TRUSTEE REPORTS (submitted in writing)
